RENPOWER: A trusted space where connections are truly relevant, strategic, and focused on building alliances

Why attend?

- Solar PV capacity has already grown from 1,300 MW in 2021 to more than 4,500 MW in early 2025, with much more to come.
- Battery energy storage is expanding rapidly, with more than 6,000 MWh targeted under the RESTORE scheme.
- Bulgaria's first renewable auction has awarded 3 GW of generation capacity and 1.176 GW of storage.
- Wind power is moving forward, with new onshore capacity and the first floating offshore pilot in the Black Sea.
- Green hydrogen is taking shape through the H2START project in Stara Zagora, supported by EU and national initiatives.

 **JOIN 20+ EXPERT SPEAKERS AND HIGH-LEVEL STAKEHOLDERS ACROSS 5 SESSIONS FOR A FULL DAY OF INSIGHTS, CASE STUDIES, AND STRATEGIC NETWORKING.**
